

TATA CONSUMER PRODUCTS

In line with our For Better philosophy working for Better Products, Planet and Communities, Tata Consumer Products is committed to the ethical and sustainable sourcing of tea.

All Tetley and Good Earth teas, and teapigs everyday brew blend, are sourced from estates that have been certified and independently audited by the Rainforest Alliance, through a comprehensive monitoring programme which ensures that the farms from which we buy our teas meet rigorous environmental and social standards and conform to applicable laws.

Upholding human rights is an integral aspect of how Tata Consumer Products conducts its business, and this is prioritized throughout our supply chain. We have a cross functional Business & Human Rights working committee and robust Governance structure which is sponsored at the highest level of our business.

We expect all suppliers to share our commitment to ethical and sustainable practices and require all major suppliers to adhere to and ensure compliance with the Tata Consumer Products Supplier Code of Conduct and our Anti Bribery policy.

It is in the interest of the whole tea community to be as transparent as possible about where the tea we use is sourced from. We are committed to play our part in this and to working with others towards a more sustainable tea industry, where all workers are treated with respect, dignity and care and are paid fairly in line with local government law.
